TARGET SHOOTING

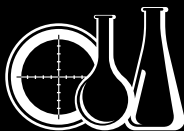

With a thin reticle and more clear view, these are suitable for accurate target shooting.

Developed with the competitors shooters

HUNTING

Easy and clear reticle with a wide eye relief allows quick target acquisition

ETCHED RETICLE

Etched reticles offer the sharpest view and contrast of dots

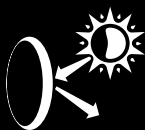

WATERPROOF

Riflescopes are tested in extreme conditions to withstand immersion

SHOCKPROOF

1-piece main tube with special turret system give the riflescope insane shockproof ability

ANTI-REFLECTIVE COATING

Ensure no light transmission defects while you are aiming

SIDE FOCUS

Side focus control is designed for quick target distance adjustment

TURRETS

Zero Locking/Resetting turrets are easy to handle with push/pull system for locking. Loosening the turret screw will allow for zero resetting

DIOPTRER CORRECTION

Diopter correction allows to set up the focus of reticle according to your eye. Adjustable from -2 to +2
